Seasons of the love for those less fortunate

Festival of Trees

It was a season of happiness with the President's Tree being sold at the Festival of Trees in Wichita. Since there were so many ornaments donated for the tree an additional small tree was also made. It was much to the delight of a small girl whose mother purchased the President's trees for \$400. The little girl told us all that the small tree was going to go in her room! The Festival of Trees event is for Goodwill Charity and is actively supported by many ESA groups in the State.

Marsha and Jill take the time to visit with and do a Kodak moment with Mr. and Mrs. Santa. It never hurts to make sure he knows if you've been good. At the top of the page they enter the photo booth to make a lasting friendship memory together. Marsha has worn many hats this year.

Heartspring Lighting of the Campus

Santa showed up at Heartspring for the Lighting of the Campus too. Marsha and Jill never miss the opportunity to make points with the big guy! Santa never neglects the kids at Heartspring.
