

Educational (Continued)

KANSAS EDUCATIONAL LIBRARY

The Kansas Educational Library was established by Debbie Davis, the 1987 Kansas State Educational Director. The purpose of the Library is to preserve and share educational programs. Any chapter may contribute and use the library.

The programs contained in the library are available at no cost to any chapter desiring to use them. The chapter must write the State Educational Director at least one (1) month prior to the date they will need the program. This will give her adequate time to mail the program and for the chapter to review it. The program needs to be returned no later than one (1) week following the program date. Remember, there may be other chapters wanting to use the same program. The program could be returned with the Educational Report form to save postage. Chapters can request several programs for review and then make copies of the ones they want to use.

Any chapter may submit programs to the Library. The programs must be well written, typed and should contain a bibliography. The report should not be written on the report form!! Please include the NAME OF THE PERSON who wrote the program or NAME OF PERSON contributing the program, CHAPTER NAME, and TOWN on the program; this way each chapter will be given due credit. It is hoped that the Library will grow and be used by all chapters.

The following is a list of programs currently available:
